

TED and Medicare Buy-In Webinar

How to access systems or
applications with MILogin

- **MILogin is the State of Michigan's new Single Sign On or SSO**
- **You will use MILogin to access MDCH systems and applications that you use in your work**
- **Based on the rollout schedule for your system or application you may still access some systems through SSO**

- **Starting Friday, April 24th you will use MILogin to access TED**
- **Medicare Buy-In will be accessed through TED**
- **All TED users will access TED and Medicare Buy-In through MILogin**
- **FOIA users will also access TED through MILogin**

One benefit of MILogin is that Employees and Contractors (with a michigan.gov email address) will use the same State of Michigan Network ID and Password for MILogin that you use to log in to work computer each day

Providers and Advocates (without a michigan.gov email address) will use their Single Sign-On or SSO User name and Password

Providers and Advocates must have access to the email they use for SSO to receive the secure One-Time Password

We will demonstrate:

- **How Employees and Contractors (with a michigan.gov email address) will access TED through MILogin at work or with VPN hard token (through *Intranet*)**
- **How Employees and Contractors (with a michigan.gov email address) will access TED with MILogin through the Internet with a One-Time Password**
- **How Providers or Advocates (without a michigan.gov email address) will access TED with MILogin through the Internet with a One-Time Password**

Demonstration

How Employees and Contractors (with a michigan.gov email address) will access TED through MILogin at work or with VPN hard token (through *Intranet*)
